

Please do not allow cell phone use in flight. I cannot impress enough upon you how bad of idea this is.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments.

Cell phone use would enable terrorists to coordinate a plan of action more effectively.

The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations.

It would make an already tense cabin environment even more stressful.

Please help us make the sky as safe and comfortable as possible.
